

KSL Newsletter 06/08

Dear customers, agents and friends of our company,

as Managing Director of KSL Keilmann Sondermaschinenbau I would like to keep you informed about current topics concerning our company and its affiliates. This is why we have decided to introduce this newsletter, which from now on will be issued on a regular basis.

With best regards,

Robert Keilmann
Managing Director

Content:

1. CNC sewing unit with extra large sewing field
2. Multi-needle sewing unit with new options
3. Back in the team
4. KSA summer party

1. CNC sewing unit

By the end of July we will have finished the manufacturing of a KL 110 CNC sewing unit with a 360° rotating sewing head. This machine has a sewing field of 3000 x 3500 mm and can be used for various applications. The machine will then be ready for customer demonstration for approximately one week. If you are interested in joining one of these demonstrations, let us know as soon as possible in order to arrange a meeting at our company.

2. Multi-needle sewing unit

From now on our range of products also includes a new multi-needle sewing unit for the automatic folding of upholstery in the automotive industry.

3. Back in the team

After going through serious sickness and surgery, Reiner Girg has eventually recovered and we are very glad to have him back with us. He now feels well prepared for the price battles with our suppliers.

4. KSA summer party

Every first weekend in July our affiliate KSA celebrates its traditional summer party – this year for the seventh time since the company was founded. As every year, colleagues and family members of the Keilmann group are more than welcome to join the party.
