

KSL Newsletter 08/08

Dear customers, agents and friends of our company,

summer season is holiday season. Since many of our employees are on their well-deserved vacation and at the same time the company is running its "usual" operational business, we are proud to present to you our third edition of the KSL newsletter.

Yours sincerely,

Robert Keilmann
Managing Director

Content:

1. KL 110 CNC Sewing Unit for Airbags
2. Winding System for Technical Textiles
3. KSL Service Center in China
4. Exhibitions and Fairs 2008

1. KL 110 CNC Sewing Unit for Airbags

This CNC sewing unit has a 360° turnable sewing head for an outstanding seam pattern and a high and reproducible sewing quality in all directions; it is used e.g. for the processing of head bags. One of the many options that can be chosen is a glass table in the positioning area so that the quality check can be carried out right after the sewing process.

2. Winding System for Technical Textiles

KSL offers various systems for the up- and unwinding of technical textiles. For your special application please send us your requirements so that we can find a tailor-made solution for you.

3. KSL Service Center China

In this edition, we would like to introduce to your our Service Center in China/Beijing:

Mr. Liu-DaYu has been our sales partner in China for the last two years. In addition, KSL has now engaged two local technicians who will be responsible for prompt on-site assistance in mechanical and electronic regards.

Both our Service Technician and our Electronic Service Engineer have been trained at the KSL headquarters in Lorsch/Germany in the functioning of the KSL machines with the aim to provide a high-quality service.

Mr. Liu - DaYu
*General Manager for Sales
and After Service*

Mr. Gong - WenQing
*Service
Technician*

Mr. Liu - ZhiGang
*Electronic
Service Engineer*
